

**Complete Communications, Inc. (CCI) Awarded Communication Networking Contract At  
L'Anse Creuse Public Schools**

Clinton Township, MI – 04.08.09 – Complete Communications, Inc. (CCI), recently won a contract to install an all new voice and data communication network at both Green Elementary School and the Pellerin Center. Green Elementary is being rebuilt on the existing site in Chesterfield, MI. The new school is a 70,000 square foot, two story building for students in kindergarten through the 5<sup>th</sup> grade. The Pellerin Center is an all new 38,000 square foot, two story facility in Clinton Township, that will house the alternative education and adult education programs currently housed at Riverside Academy.

CCI will be implementing state of the art communications technology at both school buildings – installing low voltage voice and data system cabling infrastructure, creating the video cabling backbone, and installing new flat screen TVs.

“We couldn’t be happier supporting the L’Anse Creuse Public Schools on this project”, said Mike Meldrum, CCI President. “CCI has worked with the school district on a number of projects over past nine years. We understand their needs and have demonstrated our commitment to quality workmanship time and again. I happen to be tax-paying resident of Clinton Township myself, and I’m proud to have my company support the community through our work with the school district.”

**About Complete Communications, Inc.**

Founded in 1987, Complete Communications, Inc. (CCI), is a recognized leader in the communications arena, providing full service tailor-made solutions to its customers throughout Michigan. CCI is unique, in the fact that they offer their customers a “single source”/one-stop-shop capability for all their communication needs.
