

Complete Communications, Inc. (CCI) Infrastructure Contract Renewed At

Great Lakes National Cemetery

Providing High-Speed Communication

Clinton Township, MI – 9.30.09 – Complete Communications, Inc. (CCI) recently expanded their communication infrastructure contract with Great Lakes National Cemetery in Holly, MI. The Great Lakes National Cemetery is the second national cemetery built in Michigan and serves veterans in the greater Detroit metropolitan area.

“CCI is involved in many projects throughout Michigan, its projects like this that humble our team, and we’re honored to be part’ said Mike Meldrum, CCI President”. The fiber, copper, and IP phones provided for this project continues to enable the memorial center to manage costs while maintaining the infrastructure required to service families.

CCI has worked with the Great Lakes Cemetery over the past few years, we understand communication requirements, and the importance this solution provides. “It’s a privilege to work with this establishment” said Mike Meldrum, CCI President. ”

About Complete Communications, Inc.

Founded in 1987, Complete Communications, Inc. (CCI), is a recognized leader in the communications arena, providing full service tailor-made solutions to its customers throughout Michigan. CCI is unique, in the fact that they offer their customers a “single source”/one-stop-shop capability for all their communication needs. Fundamental to the company’s success is its ability to implement projects and maintenance solutions that consistently exceed customer expectations.
